

Client Meeting - February 4th, 11:30 - 11:50 am PST

Team updates for the client:

- Account registration, login, and admin access: Users can now register for an account with their email and their logins would be stored in the database. Only users with admin access can edit articles.
- Eco tracker: Currently the page has input fields with placeholder values as we continue to work on implementing the weightings and scoring
- Some general and responsive UI updates:
 - The editing tool is now responsive
 - The article browsing page now highlights the default segment

Client updates and questions:

- The articles should contain the relevant ECO solutions somewhere - maybe as another segment)
- No login/registration through other platforms
- Eco tracker: Solutions filter options should let users filter by star levels and/or sections
