Client Meeting - September 29th, 1:30 - 2:00pm PST

- All teams agreed on Tuesdays from 1:30 - 2:00pm PST to be the weekly client meeting. All meetings will be recorded from now on for members in different time zones who might not make it.
- The client explained that Cyclops might be incorporated and get official partners, and they plan on expanding into schools and universities.
- Groups should consult with the client first before implementing any features that are not free
- We presented the chosen building tools and frameworks to the client (Ionic with Angular), explained why we chose them and detailed a rough plan on how we will use these tools to implement the app. The client was happy with this plan
- The client explained after the meeting on discord that now all groups have a rough plan, future meeting agendas will be sent by Liaisons.
- Our group will work on a UI mockup and initializing the base project and present this next week.
