Blockers + Surprises

2. Learning

3. Plan

Individual Tasks:

- **Larry**
  - System Visibility Update for Edit Tool (from Peer Testing 2)
  - Eco Tracker
  - Help out the database implementation
  - Testing
- **Eric**
  - Continue work on Home page
  - Continue work on Profile Page
  - Database work
- **Sumeet**
  - Complete work on Eco tracker tab
  - Styling changes
  - Associate a set score each time a solution is selected on the Eco tracker form
- **Megan**
  - Tracking user's read articles
    - Reorder home page (bring intro text to bottom, use existing cards for a "For You" section
    - Check if the user has the latestRead field in the database and display the latest read card on the homepage. Use saved scrolling position to scroll to that position
    - Initialize all eco solutions

- Load eco solutions as cards on main page
  (if there is a time filter them)
- Preload eco fields on form once eco
  solution is selected
